### PROFILE

I have over 15 years' experience in archaeological and heritage work throughout Australia, Singapore, Malta, and Italy. In this capacity I have worked extensively with government, private, and community organisations.

As an archaeologist I have worked on Aboriginal, historical, maritime, and classical sites as a team member, supervisor, and Director. and as a specialist in GIS, digital recording, and spatial product development. I have written cultural heritage assessments, archaeological assessments, significance assessments, site conservation and management assessments, and heritage management plans. I have worked with heritage and conservation education programs in Australia, Italy, and Malta, as well as working on Defence heritage assets, and on road and rail, water and sewer, and power infrastructure projects.

Prior to becoming an archaeologist, I worked for over 15 years in Defence aviation (RAAF- Senior Non-Commissioned Officer), five years in civil aviation ground and air operations compliance and safety, electrical construction compliance and safety, IT, and finance. I have worked extensively on small to large scale projects as a team leader and team member and have managed teams of up to 35 personnel. I also have over 20 years' experience in emergency service response and recovery as an incident manager, instructor, and team leader. I am a strong advocate for inclusion and diversity in the workplace.
